

Square Dance is ...

Square Dance is a Song

The individual moves you learn are the notes to be played.
When played in a sequence, the notes make up a song.
When timing and flow are added, the result is a symphony.
Go forward and make beautiful music.

Square Dance is a Painting

Images are created by dancers on a square-dance canvas.
The images should be clear and distinct.
Even if you don't possess the skill of a Picasso or Rembrandt,
May you enjoy the passion and joy of a kid using Finger Paints.

Square Dance is a Sport

You are one member of the team. Respect your teammates.
Sometimes the team needs you and sometimes you need the team.
Be there for each other and you will be winners.

Square Dance is a Community

It's your community. It has values like a small town.
Help build your community into something to be proud of.
Support your club. Pitch in to do your share and we all will benefit.

Square Dance is a Puzzle

It's a puzzle of geometry: squares, lines, columns, and waves.
The puzzle is changing constantly.
Although you are only one piece of the puzzle, it can't be completed without you.
There is always a specific place left for you to fit in.

So dance, have fun, help others.
And if all else fails,
Blame the Caller!
